Chemical biology is a diverse and dynamic field involving chemical approaches to studying and manipulating biological systems. The goal of the Academy's Chemical Biology Discussion Group meetings is to enhance interactions among local-area laboratories working in chemical biology and to feature forefront research in chemical biology to the wider community. The meeting traditionally covers a range of current topics in chemical biology, including chemical probe development, organic synthesis, biosynthesis, protein engineering, nanotechnology, and drug discovery. The annual year-end meeting features distinguished keynote speaker **Professor Michael Marletta** of the **Scripps Research Institute**. This will be followed by shorter, cutting-edge talks by graduate students and postdoctoral fellows selected from participating tristate-area institutions, and a poster session.

## Poster Competition: Call for Abstracts

Submissions are invited for a poster competition. All abstracts will be reviewed, and four will be selected for a brief oral presentation. For complete submission instructions, email **CBDG@nyas.org** with 'Poster Information' in the subject line. There is no need to type a message; instructions will be forwarded automatically. The deadline for poster abstract submission is **Friday, May 9**, and selected poster and oral presenters will be notified by **May 23**.

## Organizers

**Brent R. Stockwell**, PhD, Columbia University  
**Jennifer S. Henry**, PhD, The New York Academy of Sciences

## Keynote Speaker

**Michael Marletta**, PhD, The Scripps Research Institute

Presented by the **Chemical Biology Discussion Group** at the **New York Academy of Sciences**

The **Chemical Biology Discussion Group** is proudly supported by

Mission Partner support for the Frontiers of Science program provided by **Pfizer**

**JUN  
03**  
9:30 AM-  
2:30 PM

## Location

The New York  
Academy of Sciences  
7 World Trade Center  
250 Greenwich Street  
40th Floor  
New York, NY 10007
