Speakers – not necessarily in this order:

**Andre Taylor**

New York University Tandon School of Engineering  
Department of Chemical and Biological Engineering

*TBA*

**Angiolina Comotti**

University of Milano-Bicocca  
Department of Materials Science

*TBA*

**Ned Seeman**

New York University  
Department of Chemistry

*Semantomorphic Science with DNA*

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.
