NEW YORK NANOSCIENCE
DISCUSSION GROUP

Tuesday, March 26, 2019

Silver Room 1003

Refreshments: 7:00 p.m.

Science: 7:30 – 9:00 p.m.

New York University
Department of Chemistry
Silver Center
31 Washington Place
New York, NY 10003
Phone: 212-998-8400

Speakers – not necessarily in this order:

Shalom Wind

Columbia University

Department of Applied Physics and Applied Mathematics

Nanoscale Architectures for Probing Biomolecular and Cellular Processes

Dan Heller

Sloan Kettering Institute

Molecular Pharmacology Program

Development of Targeted Nanomedicines Via Machine Learning Processes

Luis Campos

Columbia University

Department of Chemistry

Materials Design for 3rd Generation Solar Cells

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.

NEW YORK UNIVERSITY

Department of Chemistry
