

Title: General Chemistry Lecturer  
Position type: Full Time Non Tenure Track  
Location: Brooklyn, New York  
Open Date: June 1, 2018  
Department: Tandon School of Engineering: Chemical and Biomolecular Engineering

Position Description:

The Department of Chemical and Biomolecular Engineering at the NYU Tandon School of Engineering invites applications for the full-time, non-tenured, renewable faculty position of General Chemistry Lecturer, with a start date of January 1, 2019. New York University (NYU) is one of the top private universities in the United States, and the Tandon School of Engineering has the distinct history of having been known previously as Brooklyn Poly and the NYU Polytechnic School of Engineering.

The NYU Tandon School of Engineering is part of a major research university, and it is deeply committed to excellence in teaching and learning. Tandon fosters student and faculty innovation and entrepreneurship that make a difference in the world. We invite applications from candidates who have a strong commitment to excellence in teaching general chemistry to both undergraduate science and engineering majors at Tandon. Responsibilities include teaching lectures and laboratories for general chemistry. The initial appointment is for a minimum of one year with the possibility of multi-year renewals contingent upon successful reviews.

Qualifications:

The successful candidate should be an excellent teacher of general chemistry. Candidates must have a PhD in chemistry or a related field at the time of appointment. Experience teaching general chemistry at the University level is required.

Application Instructions:

Applicants should submit a cover letter, current CV, teaching evaluations, and three references. All application materials should be submitted electronically.

Review of applications will begin on July 1, 2018.

New York University is an Equal Opportunity/Affirmative Action Employer.

Job category: Faculty

Closing date: Open until filled
